04 / CAPABILITY AT A GLANCE

OEM-only sourcing

New, genuine product from the manufacturer or its authorized distributors. No brokers.

Traceability

Certificate of conformance and lot, serial and date code records with every shipment.

Configuration control

Exact part number, series and firmware match. No substitutions without written Contracting Officer approval.

DoD experience

Prime contractor on DISA/DITCO work and federal equipment supply.

Small business

Supports agency small business goals and broadens the supplier base.

Leadership depth

3 GW+ of data center capacity delivered across Google, AWS and Meta; 25,000+ devices deployed; \$18M data restructure.

05 / ORDER TO DELIVERY

Every order is sourced through the manufacturer's authorized channel, with DFARS 252.246-7007 and 252.246-7008 counterfeit-avoidance requirements flowed down to our suppliers.

- 1 Validate every line item against the Government's part number, series, revision and quantity.
- 2 Confirm pricing, availability and lead times with the authorized source and report them to the Contracting Officer.
- 3 Place the order with the authorized source and track it to the ship date.
- 4 Inspect each receipt for part number, quantity, condition and documentation.
- 5 Ship to the delivery point with the certificate of conformance and traceability records.
- 6 Confirm delivery and close out the order with the Contracting Officer.
